

OUTPATIENT MENTAL HEALTH CLINIC

Each Outpatient Mental Health Clinic offers a full range of services for children, adolescents and adults. Our professionals are Board Certified and licensed in the State of Maryland. Many are specialists in the delivery of mental health care for children, adolescents and families. Our therapists are licensed, experienced professionals and offer a wide array of treatment for individuals, families and couples.

Our clinics are open five days per week including some evening hours.

Adult Services

Key Point Outpatient Mental Health Clinics provide psychotherapy and psychiatric services to adults with a wide variety of mental health problems. Patients are treated in individual, group, family therapy, or a combination of those methods. State-of-the-art clinical assessment and interventions reflect individual treatment needs are provided in a respectful, culturally sensitive, confidential atmosphere.

Child & Adolescent Services

Our Mental Health Clinics provide services to children, adolescents, and their families. Individual, family and group therapy are offered. Psychiatric assessment and medication management are also provided by Board Certified Child Psychiatrists and Nurse Practitioners. Licensed and experienced therapists provide a full range of services to our child and adolescent patients and their families.

School Based Programs

Key point is presently providing counseling services in Baltimore, Harford and Cecil County Schools. Children and their families may receive individual, family or group counseling at these sites. Information about the school-based program can be obtained by contacting each clinic or through the particular school.

Payment

Key Point Health Services is primarily to the public health provider. We Accept Medicare, Medicare Railroad Retirement, Maryland Medical Assistance and uninsured persons who qualify under Maryland's uninsured eligibility rules.

Key Point does participate in some private insurance plans, including Tricare for service members and their families. Please call the clinic nearest you and inquire about private insurance participation.

Mission Statement

The mission of Key Point Health Services is to provide quality behavioral health services in an environment committed to the journey of wellness and recovery.
